

DeKalb Blower

Industrial Air Moving Equipment

Extreme duty products

Series "FHD" Forward Curve

- operates at lower speeds and stress levels at high temperatures.
- clean air only
- must be used with a housing or diffuser

Series "BT" Backward Inclined

- non-overloading design is ideal for fluctuating system resistance

Series "RB" Radial Blade

- self cleaning blade where dust or particulate are in air stream

Series "PAX" Axial Flow

- one way or reversing flow

Wheel Dia	Capacity	Static Pressure	Max Temperature	Product Line
	CFM	" WG	deg F	
12 ¼ -36 ½	800-91800	½ -18	1700	FHD forward curve
12 ¼ -36 ½	600-41000	¼ -8	1300	BT backward inclined
6 - 36 ½	100-18000	¼ -20	1700	RB radial blade
14 -66	300-155000	¼ -3 ½	1600	PAX axial flow
